

metaDyn: Multivariate Meta-Analysis of Dynamic Model Estimates

Ivan Jacob Agaloos Pesigan

Description

Fits fixed-, random-, or mixed-effects multivariate meta-analysis models using dynamic model estimates from each individual.

Installation

You can install the CRAN release of **metaDyn** with:

```
install.packages("metaDyn")
```

You can install the development version of **metaDyn** from [GitHub](#) with:

```
if (!require("pak")) install.packages("pak")  
pak::pkg_install("jeksterslab/metaDyn")
```

More Information

See [GitHub Pages](#) for package documentation.
